Tutorial 2: Download and install GLO Maker

Note: if you are using a computer supplied by your institution you may need to have administrator rights set on your account to be able to install the software. In this case, contact your IT Department and request them to install the software for you.

Type the following URL into your browser to download and install GLO Maker:
<http://www.glomaker.org/downloads.html>

Installing GLO Maker is a simple one-step process.

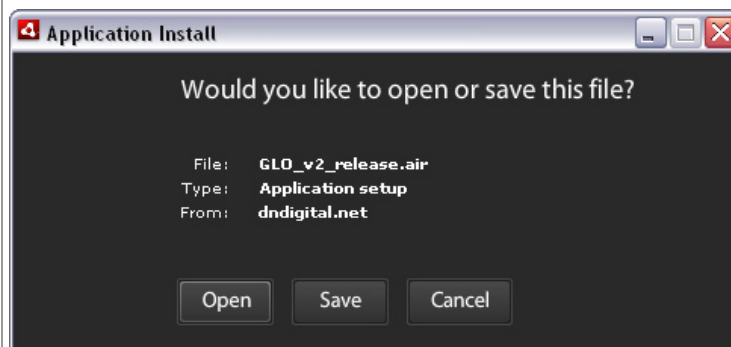

From the 'Downloads' page on the GLO Maker website, click on the link to '**Download GLO Maker 2**'.

You will then be asked to fill in a short Registration form, so that we can let you know when there are updates to GLO Maker.

Afterwards you will be taken to the page where you can download GLO Maker.

Click on the '**Install Now**' button.

In the first part of the installation screen you will be asked whether you want to 'Open' or 'Save' the file. Select '**Open**' and choose where you want to save the file.

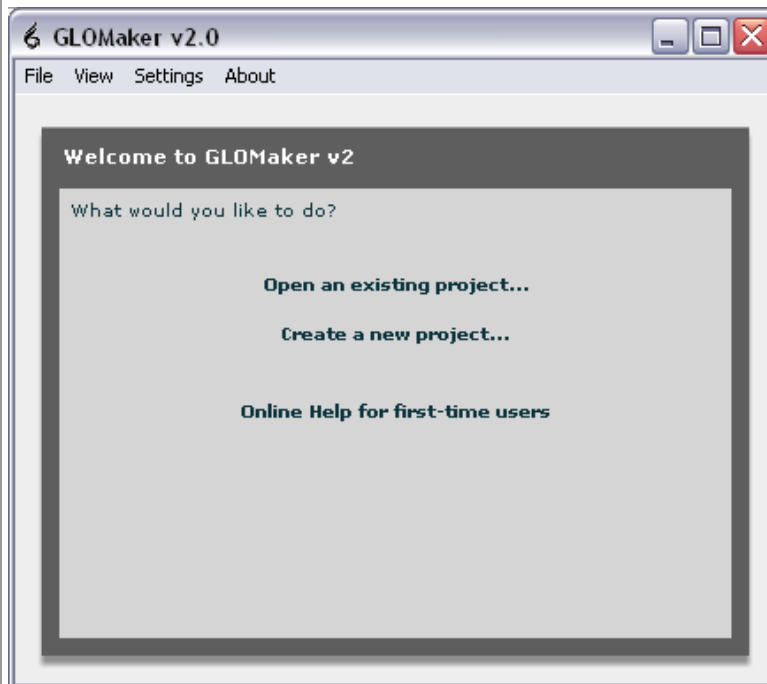

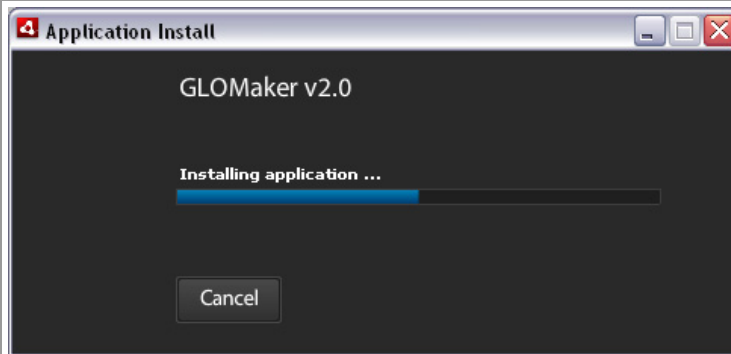

The GLO Maker application will then be installed.

The installation will also download and install **Adobe AIR** at the same time, which is required to run the GLO Maker software.

When installed, GLO Maker will automatically open up ready for use

You should also see the GLO Maker short cut icon on your desktop if you chose that option

Problems installing GLO Maker

If you experience problems installing GLO Maker, try installing Adobe AIR first, and then GLO Maker. You can do this from the links further down the download page on the website.
